**Building Healthier Communities (BHC) is advancing two specific goals supporting the state's health system transformation. They are: (1) facilitate collaboration across disciplines, campus and community to develop capacity in funding and resources that promote healthy communities for all Rhode Islanders; and (2) strengthen the bridge between RIC's academic and continuing education programs to build career ladders for entry-level healthcare workers to educate, advance and professionalize the workforce serving Rhode Island's most vulnerable populations. BHC is housed in RIC's Office of Sponsored Programs and funded through the RI Executive Office of Health and Human Services as part of the Healthcare Workforce Transformation Project.**
