Dept. ART

Recommended by Undergraduate Curriculum Committee

(Department, Person, or Group)

Effective date: Fall 2022.

Catalog citations: See pages on Curriculum website.

Comments: These proposals are revising titles and descriptions of several Art History courses to allow for more diverse coverage and to make the content clearer for students. In #001, the description of ART 331 Greek and Roman Art is being revised, in #002, the title of ART 332 will become ART 332 Studies in Renaissance Art, and the description updated, and also add in the possibility of it being retaken with a change in topic, and the same for #003, ART 333, which will become ART 333 Studies in Baroque Art. In #013 there are revisions to the description and prerequisites of ART 493 Reading and Research in Art History.

Dept. Social Work

Recommended by Undergraduate Curriculum Committee

(Department, Person, or Group)

Effective date: Fall 2022.

Catalog citations: See pages on Curriculum website.

Comments: These two proposals are revising the Social Work BSW (and BSW to MSW) to simplify the field work requirement (which formerly had a variety of tracks, most of which were never used) and make it consistent for all students (#005)—several field work courses will be deleted and prerequisites will be fixed so that all necessary prerequisites for the needed courses are accurate. This technically reduces the BSW by two credits, and it now will be a fixed 68 total credits (rather than the range of 70-80). This change has a fortunate knock on effect for the BSW to MSW program, too, reducing that from 74-86 to 70 total credits, and the Graduate Committee have also approved. #004 covers all the course changes: SWRK 338: Introduction To Fieldwork, SWRK 445: Summer Extended Fieldwork, SWRK 446: Fall Extended Fieldwork, and SWRK 447: Spring Extended Fieldwork are all being deleted from the catalog. Other courses prerequisites revised to accommodate these changes: SWRK 327: Group and Community Practice, SWRK 426: Clinical Social Work: Theories/Models, and SWRK 464 Senior Seminar in Social Work; SWRK 436: Field Work (Revise Description, Prerequisites and Credit Hours), and SWRK 437: Advanced Fieldwork (Revise Description and Credit Hours) need other changes as noted. Each is currently listed as 4-7 credit hours and now both will be just 4 credit hours.

Dept. English

Recommended by Undergraduate Curriculum Committee

(Department, Person, or Group)

Effective date: Fall 2022.

Catalog citations: See pages on Curriculum website.

Comments: Asks to approve the revision of the title of ENGL 340 to become ENGL 340 Studies in Poetry, Drama or Prose, and update the description to reflect this. This is combining the original ENGL 340 Studies in Prose course with ENGL 342 Studies in Drama and ENGL 343 Studies in Poetry courses to provide more flexibility—all three satisfy the same program requirements and previously could be repeated with a change in topic, so this should cause no confusion on transcripts, but will allow the course to be offered according to NECHE guidelines. ENGL 342 and 343 can then be deleted from the catalog.

Dept. Co-Director Global Studies

Recommended by Undergraduate Curriculum Committee

(Department, Person, or Group)

Effective date: Fall 2022.

Catalog citations: See pages on Curriculum website.

Comments: Asks to approve the revision of the title, description and prerequisite for GLOB 200W Global Studies and the World, to make it more accessible and encourage student who want to study abroad to sign up. It will remain a WID course and the information on this will be updated accordingly.

Dept. Computer Science and Information
Systems

Recommended by Undergraduate Curriculum Committee
(Department, Person, or Group)

Effective date: Fall 2022.

Catalog citations: See pages on Curriculum website.

Comments: #009 Asks to revise the prerequisite of CIS 252 Introduction to Information Systems, so that students might take it earlier. #010 asks to approve revisions to the prerequisite of CIS 455 Database Programming, to add CIS 301 Introduction to Computer Programming in Business to ensure students are prepared for the course. #011 asks for a CIS program revision that reflects the program's move from School of Business to School of Arts and Science—strengthening the core with an additional course requirement (CIS 320 Information Technology: Hardware and Software Systems) and reducing the number of required business courses, as well as removing a COMM elective. The overall total credits for the program will be reduced from 68 to 66.
